[ZCE PTA Futures](#)

[INE Crude Oil Futures](#)

TECHNOLOGY

Connectivity

Through co-location services, trading clients at various data centres availing of our High-Frequency Trading (HFT) are given low latency and dedicated access to trading platforms.

FORESIGHT

Plans for the future

In terms of expanding the opportunities for trade, we will continue to seek new markets and product opportunities.

Orient Futures Singapore

OFIS offers Exchange Traded Derivatives, OTC Derivatives, and Leveraged Foreign Exchange trading.

COLLABORATION

Orient Group

OFIS shares resources across the board and works hand-in-hand with the Shanghai office by sharing resources in sales, marketing and IT.
